

BRITISH PARACHUTE ASSOCIATION
Kimberley House
47 Vaughan Way
Leicester
LE1 4SG

SAFETY NOTICE

1. A hang-up incident occurred at Cockerham at the end of last season (Item 5 of these minutes refers).
2. The container used was dual purpose - static line/free fall - with a protective flap over the container closing bungee.
3. The flap was dragged through the bungee, locking the container.
4. Clubs are strongly advised against using dual-purpose containers. Containers used for S/L parachutes should NOT have a flap over the Bungee as described.
